

Fluid End - Caged Cover Nut Assembly for Small Bore Fluid Ends

A revised version of the suction cover nut will be provided on all new 2.75" and 3.00" plunger pump and fluid end assemblies as of March 2023. A cage integrated with the seal gland piece provides further protection against valve stop rotation. The suction cover assembly [gland+nut+seal] can be ordered as FEC0565.

600, 1000, 1300 bhp pump fluid ends for 2.75" and 3.00" plungers:

	old style	new style
valve stop	FEC0382	
gland	FEC0338	FEC0562G
nut	FEC0339	FEC0562N
seal	FEC0095	FEC0095-D
